Hugo JS&PSS Exploratory Committee (Committee)
http://www.hugoneighborhood.org/justicesystemexploratorycommittee.htm

When the Committee started its web published vetted “Studies & Information” page there were only a dozen or so publications, and it used a chronological approach to its list.

As the list of publications increased the chronological approach became more unwieldily. This index paper tries to address that issue of usefulness by adding four indexes. The first index list is the traditional bibliographic list alphabetized by author.

The second index list is the shortest covering conflicting information, especially between government and citizens.

The last two indices are by subject and program.

Oregon Legislative Counsel Committee. April 1, 2009. *State Mandated County Services.* Johnson, Dexter A., Legislative Counsel. Salem, OR.

The Board of Commissioners, under direction of the Sheriff, proclaimed a ratio of 1 deputy to 5 inmates as an absolute.

How does one determine the number of deputies required to operate our jail? “There is no magic formula because every jail is different.” National Sheriff Association Executive Board.

Yamhill County (Oregon) is a classic example of what an efficient and professionally managed jail can do. Although this county is 55% smaller in area than Josephine, with a population of approximately 10,000 more citizens, and has a budget comparable to ours, Sheriff Crabtree has two fewer corrections deputies, yet continually fills his older, less efficient 250-bed jail to full capacity. Why can we not do better with our state-of-the-art facility?
